18K Diamond Crafts - GuQin Series

18K 鑽石古琴系列

斷琴本身視為一種藝術創作

The process of crafting involved is also inherently an art

「琴」是中國最早的彈撥樂器之一。歷史可追溯至三千多年前、現在通稱「古琴」。傳統文人多通曉「琴、棋、書、畫」，琴居此「四藝」之首、在中國文化具特殊地位。二零零三年，古琴藝術入選聯合國教科文組織「人類口述和非物质遺產代表作」，成為世界級非物质文化遺產。

With a history dating back more than 3,000 years, the qin, or guqin as this Chinese zither is more commonly called today, is one of the oldest plucked musical instruments in China. Traditionally regarded as one of the "Four Arts of the Scholar", along with qi(chess), shu (calligraphy) and hua (painting), it represented the height of musical prowess and was long associated with China's literati. Occupying a distinctive position in Chinese culture, the art of guqin music was designated a Masterpiece of the Oral and Intangible Heritage of Humanity by UNESCO in 2003 and has thus been recognised as part of the world's intangible cultural heritage.

18K金鑽石古琴是翠藝珠寶第一條開設的高級工藝品生產線，第一代以伏羲式及正合式古琴面世，造型仿照傳統製作的模樣並加以改良，從而衍生出來。琴的開發和設計由翠藝珠寶有限公司創辦人及工藝師 Green Tea 親手締造。以精工的手藝塑造出流線型的琴身，微細的18K金配件襯托出琴身的細膩，再以鑽石突顯原來的徽位，配合整體的工藝及設計，點綴了古琴及中國藝術的靈魂。

同時18K金鑽石古琴可以根據個人喜好，選擇喜歡的琴式，再配上不同顏色的配件和弦線等，經過親手組裝成為一件屬於自己的個性化高級珠寶工藝品。

The first line of quality arts and crafts of Green Art (Jewellery). First generation follows Fuxi and Zhenghe guqin forms with improvements. The development, design, and craft of the qin is done by Green Tea, the founder of Green Art (Jewellery) and Artisan. Streamline qin body is shaped with fine handcraft and decorated with 18K-gold parts and diamond hui. The whole design touches the soul of guqin and Chinese arts.

Also the 18k gold guqin is based on yourself, just for your life style and add different accessories or string. Through your handmake, you can build up the only one for your jewellery crafts.

工藝師 Artisan

綠茶君 Green Tea

翠藝珠寶工藝師
Artisan of Green Art (Jewellery)

綠茶君 (翠藝珠寶工藝師) 在造琴前，先得依據形態線樣在原竹定好琴式，再以刀和鋸裁出琴形，並用各種工具細緻修正，還要不時用尺檢查琴面弧度，從而雕琢出古琴的原型半製品。翠藝珠寶根據古琴半製品，發展出18K金鑽石古琴工藝品。

To begin making a qin by Mr. Green Tea (Artisan of Green Art Jewellery), an outline of the desired style must be drawn onto the bamboo according to the pattern. Next, one must use craft knife and saw to cut out the basic shape. The body is then planed and fine-tuned. The curvature of the top board has to be inspected with the help of rulers from time to time. The prototype gu qin is developed from them. Green art (Jewellery) Ltd. according to the prototype develop to produce 18K gold diamond gu qin crafts.
